Bench Scale

Ishida Uni-5
Price Computing Scale/Printer/Color Touchscreen

The Uni-5 Series packs many features into an attractive low profile, small footprint case. The seven-inch color touch panel is easy to master. The operator display consists of windows for tare, weight, unit price and total price.

The membrane keyboard contains standard function keys and can be customized to include PLU, tare, and category presets plus a large number of specialized functions. Icons identify connectivity status, printing mode, and USB port. The programmable color touchscreen can be configured with three key sizes and up to 20 presets per page.

Operators can view virtual receipts, open tickets and totals before printing. The bright grayscale customer display can scroll and flash advertising messages and images. The fast and easy side-loading direct thermal printer has a variable speed and backing re-winder to quickly switch between labels and receipts.

The Ishida Uni-5 Series includes Ethernet (100 Mps) for connection to PC and other scales.

Specifications

Capacity (Dual Range):
0 to 15 × 0.005 lb, 15 to 30 × 0.01 lb

Capacity (Single Range):
60 × 0.02 lb option
